Call for speakers!

for the 2016 Dallas E&P Forum:

Conventional Success in an Unconventional World

Do you have a success story or case history of a conventional exploration or development play? All the industry buzz in recent years has been on unconventional plays, but many independents are having continued success pursuing traditional prospects that make sense in the current environment. Tell your story, and inspire and educate your geologic associates at the 2016 Dallas E&P Forum!

Contact Chairman Don Muth at don.muth@denbury.com, 972-768-3112, or Robert Webster at rwebster@gte.net, 214-676-3675.
