Don't Delay – Registration Deadline is March 24, 2023!

www.easttexasgeo.com

You need to be in attendance because:

The Prospect Expo

The Best Properties and Prospects in the Ark-La-Tex.

The 2023 Tech & Prospect Expo

The Latest Service Company Technologies.

ETGS

Icebreaker: 5:00 pm

When: March 27, 2023

Texas Music City

MARK YOUR CALENDARS!

2023 TECH & Prospect Expo

March 28, 2023

Rose Convention Center, 2000 W. Front St., Tyler, Texas

Morning Speakers: 10:00 am

Lunch: 11:30 am-1:00 pm

Afternoon Speaker: 1:30 pm

Door Prize Drawing: 3:00 pm

Set up will be after 2:00 pm on March 27, 2023.

Because ETGS' Tech / Expo theme has grown in size and scope since the beginning, the event will showcase your company to the oil and gas community of the entire ARK-LA-TEX region. We are anticipating over 500 attendees. There will be a drawing for door prizes in the afternoon at 3:00 pm (Must be present to win.) Each Registrant will receive one chance for door prize with paid admission.

Additional chances will be offered at sign-in at \$10.00 each.

The cost to attendees will be \$40.00 (\$50.00 at the door).

Proceeds from the Expo will be used to fund the ETGS Scholarship Fund for Geology majors in Texas.

EVENT SPEAKERS

10:00 am Speaker:

Casey Clawson

Vice President Geoscience

"The Haynesville & Bossier Plays of ETX/NoLa: It's A Thing!"

Mr. Clawson has over 40 years of experience in the oil & gas industry, primarily focused in the Ark-La-Tex, Rocky Mountains, and the Upper Texas Gulf Coast regions. He's held various positions in

all aspects of geological interpretation, including wellsite work and consulting, petrophysical log analysis, economic analysis of plays and trends, and M&A Analysis. Mr. Clawson was a part of the upper management team within Samson Resources, guiding the horizontal CV Sand Team and Travis Peak Exploitation group, and was also a member of the Haynesville Shale Team. Casey holds a B.S. in Geoscience from Louisiana Tech University in Ruston, LA.

1:30 pm Speaker:

Dr. Matt Boyce

"State of Industry"

Matt Boyce PhD earned a B.S. and M.S. from the University of Arkansas in Geology under the guidance of Dr. Walter Manger. He later pursued a PhD at West Virginia University under Dr. Tim Carr. While at Arkansas he was fortunate to be exposed to the discovery of the second major unconventional, the Fayetteville Shale. At WVU Matt worked with Dominion E&P in the initial exploration of the Marcellus.

After his PhD, Matt was hired by ExxonMobil (XOM) as a part of their petrophysics core group. At XOM, Matt worked several plays on the forefront of the global expansion of Unconventionals. He evaluated and operated wells in most of the major

basins in the U.S as well as operating in multiple international plays such as Vaca Muerta, La Luna, Bowland, Dnieper-Donets basin. At XOM Matt also worked a number of conventional plays that included offshore Vietnam, Gulf Of Mexico and Offshore California.

In 2013, Matt moved to SWN where he used his dual skill sets in Petrophysics and Geology. His worked continued on finding new opportunities in the US and co-wrote a new patent (US 3005657A1) that greatly enhanced determining unconventional porosity using core NMR.

In 2018, Matt pursued a new venture that was EPOCH Consulting LLC now named EPOCH Energy Group. He has found success with providing his unique skill sets to clients across industry. He was fortunate enough to be introduced to SIPES by Jeff Allen and had the honor of serving as chairman of the Houston Chapter of SIPES in 2022.
